

Transportation Not Required

This form is intended to notify your child's school and Student Transportation Services Brant Haldimand Norfolk (STSBHN) that your child, although eligible for transportation, should not be placed on a school bus.

If you intend to make alternate arrangements for your child to travel to and from school everyday, please complete this form and return it to your child's school. The school will update the information in their student database so that the risk of placing your child onto a school bus is minimized. If you plan to have your child ride the bus most of the time, there is no need to complete and return this form.
